

***“At the heart of every problem is a problem of the heart®”***

---

*No Heart Left Behind*® was founded by Abby Shields because of her belief that many of the problems we face today in education result from a problem of the heart. Abby is not referring to the physical heart, but rather the inner heart. We can't see this heart, nor weight it, nor measure it. The heart that Abby refers to is the very center of our inner being—our very life. Statements such as “*I know in my heart*” and “*I have a willing heart*”, remind us that this heart is truly a vital, living part of every individual. It is this heart that holds the nucleus of our potential and is the seat of our deepest emotions. It is from this heart that humans do their deepest thinking.

Unfortunately, when this heart becomes wounded through trials, destructive relationships or the unproductive weariness of parents or teachers, it may take years to notice that this heart has “died”. This kind of “heart trouble” may remain undetected until teenage years or even adulthood when the effects of a wounded heart surface through self-destructive behaviors, crippling addictions, depression and anger.

Abby's desire is to help people learn how to perform “heart surgery” in that innermost place where children and adults alike need it most. It is from this desire that the concept of *No Heart Left Behind*® was formed to help children, parents, educators and leaders develop their full potential—socially, spiritually, emotionally and physically.

The goal of *No Heart Left Behind*® training seminars is for your own heart to be encouraged as you encourage the hearts of others so that **no** heart will be left behind!

*Abby Shields*

If interested in exploring the various staff development opportunities for your school or organization, please call us toll free at 888-586-8356 or email us at [reconnectus@yahoo.com](mailto:reconnectus@yahoo.com).

*We will work with you to develop a cost-effective program.*

## About Abby Shields

Abby Shields is a dynamic educator, speaker, author and founder of the *No Heart Left Behind<sup>®</sup>* Foundation. Abby brings sensitivity, enthusiasm, a liberal dose of humor and 20 years of experience in the educational system to her programs.

Abby's message emphasizes our need for administering emotional CPR to produce an environment where no heart is left behind. She is the author of *Little Bits of Wisdom*, a book of tips for parents and children on surviving the teenage years. Her work with a school system in Kentucky has been featured on NBC's *Today Show*.

Abby's friends say that she redefines the term "global warming" as she lays down the cornerstone to her dream that one day, all people will treat one another with dignity and respect.
